

Harshal Patil

13+ yrs · Mumbai, IN

.NET & Azure Solution Engineer · Angular · Flutter · AI Agents & Automation

I design, build and ship production software end to end: enterprise platforms for global clients, AI agent systems built for real businesses, and my own apps live on iOS and Android.

day

CORE TECHNOLOGIES

Backend

C#, .NET 10 / 8, ASP.NET Core Web
API, EF Core, LINQ, ABP Framework,
Hangfire, Redis, REST, webhooks

Frontend

Angular 22 / 19 / 15, TypeScript,
Tailwind, RxJS, HTML5, CSS3

Mobile

Flutter for iOS and Android, App
Store and Play Store releases

Azure

Functions, App Service, Service Bus,
Event Grid, Key Vault, Blob Storage,
Azure SQL, AD B2C

Data

SQL Server, PostgreSQL, Azure SQL,
Oracle, MongoDB, Cosmos DB

AI & automation

LLM agent orchestration (OpenAI,
Claude), tool calling, human-in-the-
loop approvals, Azure AI Document
Intelligence, Azure AI Search, image
/ video / TTS generation, on-device
TFLite, NVIDIA Jetson

Integrations

WhatsApp Business API, Meta Graph
and Conversions API, Google Ads,
YouTube, Razorpay, Mixpanel

Delivery

Docker, Azure DevOps, GitHub,
CI/CD, Jira, Agile

IN PROGRESS

Microsoft AI-102 (Azure AI
Engineer), AZ-305 (Azure Solutions
Architect)

PROFILE

Senior engineer and two-time co-founder with 13+ years in C#, .NET, Angular, Azure and SQL. I take a business problem from requirements to a running, supported system across web, mobile, cloud and AI.

- **AI agents that do real work:** multi-agent platforms with tool calling, audit trails and approval gates, wired into WhatsApp, Meta and Google.
- **Fintech and healthcare:** loan workflows, EHR modules, AI medical scribing and diagnostics, built with access control and audit in mind.
- **Documents and Azure modernization:** Document Intelligence for government and insurance clients; legacy ASP.NET moved to Functions and Service Bus without breaking live workflows.

Because I run my own products, I weigh cost, adoption and support, not just the ticket in front of me.

WHAT I DELIVER

AI agents & automation

LLM agents with tools, approvals and
cost tracking, inside your .NET stack.

Legacy modernization

Incremental .NET Framework to .NET 8+
and Azure, no big-bang cutover.

Document intelligence

Extraction, validation and search over
scanned and digital files.

Product or MVP build

.NET API, Angular web and Flutter
mobile, live with CI/CD.

Performance fixes

Root causes of slow APIs, SQL / EF Core
queries and heavy screens.

Team extension & review

Senior hands in your sprints, or a written
architecture review with a fix list.

FLAGSHIP PRODUCT

More work overleaf

Revora · AI growth OS

Founder & architect · 2026

.NET 10 · Angular 22 · PostgreSQL · Redis · Hangfire · Docker ·
LLM agents · WhatsApp · Meta CAPI

- Multi-tenant platform where AI agents run marketing and sales for local service businesses; first tenant, a Navi Mumbai laundry chain, is in rollout.
- WhatsApp sales agent with a shared inbox, shadow mode and escalation rules; click-to-WhatsApp leads tied to orders and sent back to Meta as conversions.
- Research, campaign, creative, reviews and "AI CMO" agents: segmentation, retention reminders, image / video generation, scheduled publishing to Instagram, Facebook, YouTube and Google Business Profile, ads recommendations and weekly reports.
- Every AI action passes an Approval Centre; provider-agnostic AI layer, encrypted secrets (AES-256-GCM), role-based access and a full audit log.

ENTERPRISE AND CLIENT PROJECTS

Loan Application Platform .NET · Angular · SQL Server · Azure Web-based loan application software covering the borrower application, document handling and the review workflow, built on .NET, Angular and SQL Server on Azure.		Lending client · in development
Template Authoring Platform · Big Four firm Angular 19 · .NET 8 · SQL Server · Redis · Azure Functions Hierarchical templates with a drag-and-drop canvas, tree view and rule engine. About 60% faster large-template loads via incremental retrieval, lazy loading and Redis caching.	Cloud Migration Management System Angular · ASP.NET Core · Service Bus · Document Intelligence Registration, verification, appointment and resettlement modules with automated document extraction and Azure AD B2C sign-in.	
Electronic Health Records Platform Angular · ASP.NET Core · Hangfire Role-based access, nursing care, assessments, e-signature and chat in a secure multi-module EHR.	Event-Driven Data Mapping Platform Azure Functions · Service Bus · EF Core Serverless ETL across distributed systems, plus a reusable NuGet package for microservice operations.	
Enterprise Global Search Azure AI Search · Azure SQL · MongoDB Search and transformation over structured and unstructured data from databases, files and cloud storage.	Document Management and Scanning C# · ASP.NET · SQL Server · Oracle Regulated scanning and DMS for HAL, Pune Municipal Corporation, MDIndia and EMH Cranes; plus a VOD platform database migration on Azure Functions.	

PRODUCTS I HAVE BUILT AND SHIPPED

Presso24 · on-demand laundry app Flutter · .NET · Azure · WhatsApp Business API · Mixpanel Technology partner: built and run the consumer app serving Navi Mumbai, with WhatsApp OTP login and cohort analytics.			150+	80%	iOS + Android
			orders / month	repeat rate	live in stores
ClinicShark · AI medical scribing ABP Commercial · .NET · Flutter · Azure Scribing app for clinicians, deployed on Azure with iOS releases through TestFlight.	VitalScan / ZKare · diagnostics Multi-vertical healthcare diagnostics platform serving several segments on one shared core.				
TrackOn · face-recognition attendance Flutter · MobileFaceNet · TFLite On-device recognition with multi-angle registration and geofencing, on iOS and Android.	FintaSense · portfolio optimization Adaptive portfolio optimization for US institutional clients, driven by a market-regime model.				
DVR.AI · edge AI vision NVIDIA Jetson · computer vision Jetson-based AI camera system and related face-recognition and IoT products, on-premise.	SiteStock & SignAds · business web apps Angular PWA · ASP.NET Core · React · Cloudflare Construction materials purchase and inventory PWA (Angular, ASP.NET Core, PostgreSQL), and a signage company site with enquiry capture and a private admin.				

WAYS TO WORK WITH ME

Individual freelance Hourly or fixed milestones for features, fixes, AI agents, reviews and modernization.	Team delivery Through Bit2Sky India or HNV Techno Solutions, Navi Mumbai, for full builds.	US contracting Through Bit2Sky Inc. USA, with SBA 8(a) and GSA MAS positioning.
